The cars odometer reads 2,659 miles. The cars, about 500 total, from the Lambrecht Chevrolet Dealership will be sold at auction this weekend. When Ray Lambrecht, who ran the dealership with his wife Mildred for 50 years, would get in a new model year car he would put any unsold cars from the previous model year into storage along with any used car trade-ins that remained at the dealership for too long. Many were stored outdoors on the farm. These leftover cars along with dealership memorabilia will be sold at the auction. Many of his 500 cars being offered at the auction have never been titled and have less than 20 miles on them. An estimated 10 to 12 thousand car enthusiasts from around the world are expected in Pierce, a town with a population of 1,700, for the auction. Bidders from about a dozen countries have already started the bidding at Proxibid.com (Photo by Scott Olson/Getty Images)

DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

***Second Filing Deadline:*** You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.\*  
*See* 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See* 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See* 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**
